WORK EXPERIENCE

Decordia, design for events and Festivals company

Run by Cordelia Ashwell.

June 2021, work placement in which I developed skills such as: Prop-making for Events, Aging techniques, Sewing. I join the team and helped in the construction of the Manchester Flower Festival, and Homeground.

Designing a short Animation (University project)

Sept-Nov 2020, As part of my studies, I came up with the concept for a short Animation (link on my website). This project helped me to develop my skills in creating storyboards, using a Wacom Board and Photoshop to professional standards.

Cooking Show, design and renderings

Collaboration with a third year student (the producer).

Feb-Apr 2020, For this project I took in the role of Art Director and Production Designer. I worked in close contact with the producer and I had to come up with a design for her Cooking Show, bearing in mind I had an extremely limited budget.

The Ballad of Isosceles, Theatre Show (VR experience)

Produced and directed by actress Alison Matthews.

Jan-Mar 2020, Interactive Theatre Performance that took place in Adelphi Building. In peer, I came up with the design of a Pod. The process involved coming up with technical drawings, researching of suitable materials and physically building the pod.

Bridgewater Hall, Casual Steward

My current job (on a 0 hours contract).

Sept 2018-now, Despite not being related to the film industry, this job has taught me how to provide customer service to high standards, and to work under pressure in a fast-paced environment. It also constantly gives me the chance to interact with artists.

AuPair, London

Sept 2017-Sept 2018, I looked after two young children, and I needed to constantly entertain them with fun games and activities. By using reusable materials I was teaching them how to craft toys and objects. Skills that I believe are essential to work in the Children Television Industry.

my PROFILE

I am a international student (from Italy) recently graduated at Salford University. Throughout my studies I developed a series of technical skills and knowledge that are relevant to work in the Film industry (in the Art Department). One of my strenghts lies in SketchUp (and rendering), a software which I managed to master in the past three years. All of my works, including my Final major project are available for viewing on my website (link above).
